THE BEST ADD-ONS TO YOUR TIMEX-SINCLAIR 1000

SYNTAX and SQ

SYNTAX newsletter brings you news, reviews, and applications, plus technical notes for circuit-builders. Enough to keep you busy month after month. Through SYNTAX you can communicate with thousands of Sinclair and Timex users to share problems and advice about programs and vendors. You get timely updates about new hardware, software and publications. And we cover all the Timex-Sinclair computers, including ZX80/MicroAces, as well as ZX81s and the new Timex-Sinclair 1000s. When Sinclair's new Spectrum reaches the US, you'll find Spectrum programs and applications in SYNTAX. Even our ads keep you up to date on the ZX/Timex world.

SYNTAX emphasizes practicality. You can use our programs and projects even if you aren't sure at first why they work, because you get complete directions. Text is clear and easy to understand. SYNTAX readers already know about:

- Adding a Joystick (6/82)
- Adding Big Keyboard (12/80)
- QS Hi-Res Graphics (4/82)
- Making a Phone Dialer (2/81)
- FORTH on ZX/TS (5/82)
- 8K Income Tax Program (6/82)
- Building Additional RAM (3/81, 2/82)
- Alphanumeric Sorts (10/81)

And SYNTAX readers respond to what they get every month:

Thank you for supplying back issues of SYNTAX . . . After looking them over I am convinced that your publication offers superior information on the ZX81 microcomputer.

I'm really pleased with SYNTAX — both content and service. It's the best (and only reliable) support in N. America for ZX enthusiasts . . .

SQ, The Syntax Quarterly, is the new all-Timex-Sinclair US magazine. Published by the same people who bring you SYNTAX, **SQ** contains expanded coverage of all the Timex-Sinclair computers, including the Spectrum. It brings you 64 pages of useful and educational programs, extensive hardware projects, and in-depth tutorials for beginning and advanced users alike.

SQ's detailed objective reviews help you choose among the latest hardware and software available in the US and UK. You get tutorials on BASIC and machine language programming, so you can move from novice to advanced user. And with our tested hardware projects you can expand and tailor ZX/TS capabilities to your own purposes.

WHAT'S SPECIAL ABOUT OUR PUBLICATIONS?

We work hard to bring you quality and to print useful programs accurately. Each program is tested to make sure it works, that it fits in the designated RAM, and that it runs when you follow the directions. We invented Syntactic Sum™ as an additional aid for you in getting error-free programs.

Join the others who stretch their Timex-Sinclair computers to their utmost. Act now — as soon as we receive your coupon with payment, your first issue of SYNTAX will be on its way, with **SQ** right behind. For faster service, phone your credit card order to 617/456-3661
